GTX Multi-Seal Adhesive Sealant

Sealants

Anti-Seize

Gasket Makers

Aerosols

GTX Multi-Seal Adhesive Sealant is a New VOC compliant product for all 50 states. GTX takes the place of most traditional sealants, (polyurethane, silicone) and is designed to resist all the on-the-road flexing and vibrations. The Dynatex GTX Multi-Seal is fast curing and provides permanent elastic adhesion to most surfaces with excellent elasticity.

GTX Multi-Seal is paintable in 30 minutes, non-yellowing, non-streaking, sandable and free of solvents and isocyanates. The GTX Multi-Seal cures with the exposure to atmospheric moisture to form a durable flexible seal. GTX has been formulated to offer outstanding primer-less adhesion to all basic substrates such as steel, aluminum, glass, vinyl and wood. GTX can be applied and tool in almost all weather conditions.

Sealant is compatible with most paints.

Dynatex is an ISO 9001 certified manufacturer and packager of branded and private label chemicals for everyday Automotive, Heavy Duty and Industrial Maintenance Markets
